Fruit of the Loom is committed to the garment decoration industry and bringing you the very best clothing for every kind of embellishment.

Because we produce our own garments we're able to innovate manufacturing techniques and develop fabrics to bring you decorating surfaces you can trust time and time again.

Work with great quality garments and your decoration looks better and lasts longer.

Fruit delivers consistent quality that garment decorators know they can trust. The majority of our T's are made with a fine knit gauge for enhanced printability. Our Sweats have a 100% cotton face that gives you a great print canvas and offers excellent pilling performance. And our easy-care 65/35 Polos can be washed at 60°C.

Any style, any colour – we'll even make it for you!

At Fruit we aim to bring you all the styles and colours you could ever want for decoration. But if you need a garment in a colour not featured in that product's core range, no problem. We can produce any style made at our Moroccan plant in any colour from the Fruit palette.

the **Ethics & environment** are at the heart of everything we do

**Fruit of the Loom doesn't just make garments; we make them the right way. To us, this means protecting the rights of all people we work with and doing what's right for the environment.**

We've set out our high standards in our own charter that we call **The Fruit Code**. And this doesn't just apply to us – every supplier we work with has to meet the criteria and we carry out independent audits to ensure compliance.

All Fruit facilities are fully WRAP certified (an independent world organisation that ensures lawful, humane and ethical manufacturing) and our own Moroccan plant has achieved a Gold Certificate of Compliance.

We only use ethically-produced yarn and all our garments are independently Oeko-Tex Standard 100 approved. This approval certifies that they contain absolutely no substances that are harmful to humans or the environment.

We believe in fair trade and are members of the Foreign Trade Association (FTA). FTA is the leading business association of global commerce that promotes the values of international trade and sustainable supply chains and improves the political and legal framework for trade in a sustainable way. FTA provides the Business Social Compliance Initiative (BSCI) to support companies to improve working conditions in factories and farms where they source from.

Our little monster wears a costume created from a Fruit of the Loom Classic Hooded Sweat Kids in Kelly Green.

Our Moroccan plant includes its own water-treatment facility that recycles up to 60% of the water we use, returning it to the river cleaner than when it arrived. As a result of this, the river bed has completely regenerated and is once again alive with fish and wildlife.

**Our ethical and environmental credentials are industry-leading. If ethical manufacturing is important to your business – and it should be – do the right thing and choose Fruit of the Loom.**

# Complete Control from start to finish

DELIVERY TO OVER

# 75 Countries

**Control is vitally important to Fruit of the Loom and our huge custom-built manufacturing plant in Morocco gives us the control we need to bring you the garments you count on us for.**

Situated on a site the size of around 73 football pitches, our main building is the second-largest in the whole of Africa and we are entirely self-sufficient with our own sub-station and water treatment and recycling facilities.

Here we produce all our own garments – over 2 million every week – and the product quality and ethical certainty of every single one of them can be assured by us.

As well as making our own, we look after our own. A staff of almost 4,000 locally-employed people work in a multi-shift operation across our production and sewing plants, and we ensure the respect and wellbeing of our workforce with benefits including healthcare, dental care, training and transport. Factory safety is a priority: we have a dedicated fire service, and no employee is ever more than metres away from a fire escape in these state-of-the-art facilities.

In Morocco, we are committed to manufacturing processes that create less waste, which is why we research techniques that result in the best quality garments for decoration made in the best possible way. And as well as quality you can trust, total control over production means we can deliver a service you can trust too – with up to 50 million garments always in stock, we can get you exactly what you need, exactly when you need it.

Fruit Sweats come in three ranges based on the garment fabric – our Sun rating system will once again help you find the best Sweat for your needs.

## 100% cotton face

All our Sweats use an innovative technique that keeps the polyester at the back of the fabric and cotton at the front. It's polyester that causes a garment to pill, so this technique gives each sweat greater durability and unbeatable pilling performance.

All of our measurements are based on actual 'To Fit' body sizes and not the size of the garment itself. For example, a polo with a 'Chest to Fit' size of 92-97cms/36-38" will fit someone with similar chest measurements, or jog pants with a 'Waist to Fit' of 44cms/34" will fit someone with similar waist measurements.

**Note: Fitted tees are designed to fit slimmer to the body.**
